ZCSwitch

Your app-controlled smart home!

ZCSwitch is the innovative **HOME AUTOMATION** by ZCS that enables any type of domestic installation **to be remote controlled** without the need for modifications to the existing electrical system.

ZCSwitch enables you to manage together switching-on lighting, opening doors and windows, heating, air conditioning and any other type of automation and use;directly by your Smartphone/Tablet. Completely convenient and functional, at just one touch!

The system consists of an App and a number of **ZCSwitch** (depending your needs), each of which adds or replaces a button, deviator or manual switch already present in your home.

ZCSwitch is...

Efficient

You optimize domestic consumption by continuous monitoring.

Flexible

You can **increase** or **decrease** the number of **devices managed**, depending on your needs.

Simple

You can control the devices via the **dedicated APP**, directly from your **Smartphone** and **Tablet**.

Smart

The system gives you a **feedback**, which is useful for monitoring the status of the controlled devices.

Always available

Taking advantage of any internet connection, you can control the **ZCSwitchs** from anywhere in the world.

Not invasive

You can install **ZCSwitch** without changing the system power company, which retains all its functionality.

Ready to use

Simply integrate or replace the switches existing in your home with **ZCSwitch**. The **ZCS switches** take advantage of your home's Wi-Fi network to communicate with the APP. If you don't have one, you can easily install one.

Safe

You can **remotely monitor** your home devices at any time of the day. In fact, the "**switch server**" APP allows you to manage the switches even when you are not at home.

APP available for **Android** and **iOS**

Home gate-lights

Gate: open and close
Lights: switch on and off

GPS System

Open and closing of proximity via GPS

Programmed activations

Programming of days and times to switch devices on and off

Astronomical clock

Automatically calculates the changes in sunrise and sunset

Thermostat management

Setting of room temperature

Never again without!

- No more "costly" oversights!
- No more having no control!
- No more remote controls!

Maximum flexibility for homes!

Maximum freedom, with just one touch!

Maximum simplicity, with no worries!
